## FOR MORE INFO...

If you have any questions, please contact AAP-CA2 Office, at (818) 422-9877, Monday thru Friday, 8 am to 5 pm PST or email [Chapter2@aap-ca.org](mailto:Chapter2@aap-ca.org). In accordance with the Americans with Disabilities Act (ADA), please call AAP-CA2 at (818) 422-9877 should you require special assistance.

This activity has been planned and implemented in accordance with the accreditation requirements and policies of the Accreditation Council for Continuing Medical Education (ACCME) through the joint providership of PeerPoint Medical Education Institute, LLC and American Academy of Pediatrics - CA2. The PeerPoint Medical Education Institute, LLC is accredited by the ACCME to provide continuing medical education for physicians.

The PeerPoint Medical Education Institute, LLC designates this live activity for a maximum of 5.25 AMA PRA Category 1 Credit(s)™. Physicians should claim only the credit commensurate with the extent of their participation in the activity.

Successful completion of this CME activity, which includes participation in the activity, with individual assessments of the participant and feedback to the participant, enables the participant to earn 5.25 MOC points in the American Board of Pediatrics' (ABP) Maintenance of Certification program. It is the CME activity provider's responsibility to submit participant completion information to ACCME for the purpose of granting ABP MOC credit.

## DESIRED OUTCOMES

The presentational method for this activity will be Case Presentation with learner participation, Lecture with Q&A, and Small Group Discussion. This activity is geared to meet the educational requirements of Pediatricians. All Physician Specialties, Allied Health Care Professionals, and Nurses are welcome to attend. This activity will encompass the following desirable physician attributes: Medical Knowledge, Professionalism, Practice-Based Learning & Improvement and Systems-Based Practice.

At the conclusion of this activity, learners will be able to:

- Consider mindfulness and meditation techniques to reduce burnout and promote resilience.
- Understand the conception and development of the Pediatric Approach to Trauma, Treatment and Resilience.
- Understand the latest diagnostic and therapeutic recommendations in pediatric patients with asthma.
- Define implicit bias and how it is manifested in health care in the clinical setting; apply strategies that can be used to minimize its impact.
- Use best practice for safe opioid selection, dosing, duration, and discontinuation in pediatric patients and apply techniques to minimize opioid use in pediatric population.
- Describe the process for providing care to febrile neonates. Discuss the barriers to timely antibiotic administration in the different pediatric settings.
- Become familiar with options for treating nicotine addiction, and the risk factors for teen smoking initiation.
- Identify migration and immigration as a social determinant of health. Outline how sociopolitical factors influence health and health access of children in immigrant families. Formulate potential intervention strategies to optimize care from a socioecological framework.
- Recognize the professional's responsibility and the benefit to patients and healthcare workers of adhering to scientifically accepted principles and practices of infection prevention and control.
