DESIRED OUTCOMES

The presentational method for this activity will be case presentation with learner participation, Lecture with Q&A, and panel discussion. This activity is agreed to meet the educational requirements of Pediatricians. All Physician Specialties, Allied Health Care Professionals, and Nurses are welcome to attend. This activity will encompass the following desirable physician attributes: Medical Knowledge, Professionalism, and Practice-Based Learning & Improvement.

At the conclusion of this activity, attendees will:

- Understand current recommendations of COVID-19 vaccine for children ages 5 months to 5 years.
- Learn a strategic approach of population health during the pandemic.
- Define Compassion Fatigue and reflect on the scientific evidence behind self-compassion.
- Recognize key nutrients and health advantages of plant-based diets for children.
- Recognize immigrant children in our care, understand the approach to conducting migration history, and review medical considerations for refugee and immigrant populations.
- Identify current advocacy areas in California to improve children health.
- Conceptualize effective strategies to address large-scale issues affecting the health of infants, children, and adolescents.
- Recognize how implicit bias may be operating in the clinical setting, and apply strategies that can be used to minimize its impact.

This activity has been planned and implemented in accordance with the accreditation requirements and policies of the Accreditation Council for Continuing Medical Education (ACCME) through the joint providership of PeerPoint Medical Education Institute and Conference Series, LLC. PeerPoint Medical Education Institute is accredited by the ACCME to provide continuing medical education for physicians.

PeerPoint Medical Education Institute designates the live format for this educational activity for a maximum of 6.0 AMA PRA Category 1 Credits™ 6 ABP MOC Part 2 points awarded. Physicians should only claim credit commensurate with the extent of their participation in the activity.

- Understand the multifactorial etiology of POTS, and its treatment options.
- Apply lessons learned on the latest research presented by the winner of the Pediatric Trainees Research Awards.

PARKING INCLUDED
